

REPORT

From the office of the...

Executive Board

TO:	Members of the Student Representative Assembly
FROM:	Christy Au-Yeung, Science Caucus Leaders
SUBJECT:	SRA 20I Report
DATE:	Oct 27 th , 2020

Past Events, Projects & Activities

We approved past meeting minutes. We've been listening to reports from services and providing appropriate guidance. We've heard from Macademics, Maccess, Maroons, EFRT, Diversity Services and WGEN. We've been discussing how to better assess the needs of services, staff compensation and discussing ways to show our appreciation to PTMs and services who have had a particularly challenging year due to the unforeseen changes associated with COVID-19.

Current Challenges

Some current challenges are discussing adaptations for our services after the announcing of the online winter term.

Successes

We've been able to have some very good conversations regarding modifications to our services to best serve the student community during a time where not many students are on campus. Graeme has also implemented an efficient method of PTM hour tracking and we've been seeing great reporting strategies, such as the addition of social media numerics allowing us to quantify the successes of our services. These changes have allowed EB to better assess how services have been running and how to best support them.

Other

Glad to be working with an amazing team!

Best,
Christy Au-Yeung
