SUBJECT: SRA 21M Report
DATE: Sunday, January 9th, 2021

Reports from MSU services and organizations

Since our last report EB has seen reports from Macademics, Maccess, Maroons, SHEC, Spark, SWHAT, WGEN, PCC. It has been wonderful to hear from our PTM's. The largest theme amongst these was difficulties in performing service specific tasks due to covid related challenges. Specifically, engagement and visibility have been one of these challenges, so we have offered supports to these services via social media guidance from our comms department, in addition to support for any other stressors they may have experienced as a service.

Committees and ongoing business

The sponsorships and donation committee approved \$250 for empowerment squared November 24. December 8th hiring committees were stricken for PTM roles, filling all of these committees required positions. The hiring process will unfold over the coming months.

CURRENT CHALLENGES

Uncertainty in this semester was a concern leading up to the new year, and I am certain will remain an unfortunate theme and sign of the times.

All the best and happy new year!
