

REPORT

From the office of the...

Executive Board

TO: Members of the Student Representative Assembly
FROM: Kerry Yang, Member of the Executive Board
SUBJECT: Executive Board Report #1
DATE: June 20th, 2023

Dear members of the SRA,

Congratulations on being a responsible SRA member and reading the material before the meeting, unless you are reading this as I'm speaking. I'm pleased to report on the last three Executive Board meetings.

EB was trained before the first two meetings of the term. We filled an empty seat on EB, as well as all EB seats on committees. An MSU seat remains open on the Sponsorships and Donations committee.

We received service reports from the Emergency First Response Team (EFRT), the Food Collective Centre (FCC), and Spark, which are all on track for their year plans and finances:

- EFRT is in summer operations until August 25th, currently servicing convocation. Execs have been hired, inventory was completed, and first aid courses are ongoing.
- The FCC is finishing exec hiring and running Lockers for Love in-person and virtually (grocery gift cards). The Community Fridge is closed for the summer.
- Spark has hired their exec team and are currently hiring Team Leaders. Spark attended May@Mac but official summer programming is set to begin in July. "Sites and Services" and "Faculty Fair" are planned webinars for summer programming. Spark will collaborate with Macademics for "Sites and Services" where 5-6 services will be invited to present to first-year students. "Faculty Fair" is from previous years where Welcome Week reps provide information on their faculties. Spark is also working on First Year Formal with some timing challenges in aligning with the FYC coordinator and hiring of the upcoming FYC.

The transition reports for the VP administration and education were approved.

Successes

I was pleasantly panicked when I saw my last name next to the EB report because surely the first-time SRA and EB member would not be blindly tasked with this. But surely, I was, so I hope you enjoyed my panic-induced report writing. I'm counting this as a success.

Current Challenges

The Sponsorships and Donations MSU seat remains "seemingly uninhabitable", as quoted from the VP Finance.

Miscellaneous

Are you interested in hitting balls into holes with sticks? The McMaster Golf Tournament happened on June 22nd, in benefit of the MSU Child Care Centre.
