

REPORT

From the office of the...
Arts and Science Caucus

TO: Members of the Student Representative Assembly
FROM: Priya John, Artsci SRA Caucus Leader
SUBJECT: SRA 23O Report
DATE: February 25, 2024

Progress on Yearplan

- The MUSC maintenance coordinator has let us know that there are some delays in the extension cord project. He has asked us to contact him by the beginning of March. Depending on what he says, hopefully, we should have the extension cord running by March.
- We have been hosting our Arts & Science SRA Outreach Hours every Wednesdays from 10:30 to 11:30 am in LRW 3038. Our office hours have been quite successful, with plenty of student engagement
- We are working on our proposal plan to bring improvements to the Artsci space with the guidance of our faculty director, Dr. Marquis. Our initial meeting with Dr. Marquis was a success.
- We have been using our Instagram page to promote McMaster events. Our SRA Observer, Arthy Pansanathan, has been increasing community engagement through our social media platforms
- We have increased our social media following. Looking forward to increasing that number in the next two months!

Past Events, Projects, & Activities

- Elected our SRA Observer
- Started SRA outreach office hours

Upcoming Events, Projects, & Activities

- The SRA Observer and I will be contacting Mills services to continue working on silent study space project. We are also working on this project in collaboration with the SRA Health Science caucus.
- We will be sending out an email using the Artsci SRA email to all Artsci students with a feedback form for them to fill out by the end of this month. This is to increase our student engagement, as well as better gauge their needs and interests.

Outreach & Promotions

- Used the Artsci Instagram page to post about events and services happening on campus
- We have been using our Instagram page to post more engaging content (reels) to increase student engagement

Successes

- Listed above!

Current Challenges

- Our MUSC extension cord project has proven some difficulty in getting kick-started. Hopefully, we will have the project running by March.

Best,

Priya John
