Hi Anthony,

Yes, the electrician said he can put two circuits to location 1. It might add an extra hour and a little materials, around \$1,000 or so. Again, it's time and materials.

Vince

**Caution:** External email.

Hello Vince,

I was just responding to Ben's quote, but he is away. Are you able to give me a rough estimate for 2qty separate circuits (like two GFCI boxes) to the first location? We will not be going with Plug 2 location (\$1650).

Thank you,
