FROM: Jazzlyn Abbott  
SUBJECT: 24H Science Report  
DATE: October 2<sup>nd</sup>, 2024

---

Dearest SRA,  
Hey everyone! I hope you've been having a great term and are ready for reading week! SRA science is working on getting our feet back on the ground and planning for future projects.

### **MSS Collaboration**

We have been meeting with the MSS President and Year Reps to solidify our relationships with them, but also to plan collaborative events to engage a greater group of students. We will be presenting at their General Assembly, and will continue to report to them throughout the year. We are also planning an event in October with the Year Reps as a destressing social. We also plan to have more regular meetings, and have been invited to report at their Executive meetings.

During the summer, we also meet with the Associate Dean of Science and will continue to meet with her to hold accountability throughout the year.

### **Planning for Symposium**

Unfortunately, last year our research symposium in collaboration with the OER had to be cancelled due to a lack of availability of venues. However, we plan to revamp this event for the second semester. Our caucus is in the beginning stages of preparing for this event.

Best,

SRA Science
