

REPORT

From the office of the...
SRA Social Science

TO: Members of the Student Representative Assembly
FROM: Kashish Modi
SUBJECT: SRA 24H Report
DATE: October 6, 2024

Dear members of the SRA,

I hope everyone had an awesome time at homecoming! Since our last report, SRA Social Science has been busy planning our upcoming projects.

Progress on Year plan

- We reached out to the McMaster Social Science Society (MSSS) and are in the progress of picking a date to talk further about the Program Mixer Event
 - o We will be prominently planning this event with the VP Administration and the Society Admin
- We are hoping that this collaboration brings about more visibility to the SRA as well as gives students a direct contact on a program, faculty and MSU level.

Upcoming Events, Projects, & Activities

- Soon after the program Mixer event we will reach out to the VP Admin of the MSSS to discuss talking at the November General Assembly.
 - o The GA's in the past have had very low engagement. We are hoping with more promotions and potentially gift cards that it will attract more people this year.
- We plan to continue to engage in regular discussion and collaboration with the MSSS.

Outreach & Promotions

- Since the summer our SRA Social Science page has gained hundreds of new followers!
- As we finalize dates and plan upcoming projects, we plan on using our platform to promote these events.
- We also hope to make plenty of connections at the program mixer and hope this will help us branch off to a larger group of students as program societies may be more inclined to repost some of our promotional materials for future events.

Best,

SRA Social Sciences
